**IMPROVING INNOVATION & ROI:
END-TO-END APPLICATIONS**

**THE MOST ACCURATE
PRODUCT IN THE MARKET**

- **ReSurfX::vysen, enterprise-grade cloud product** - secure, scalable, easy to use interface. Initial focus on gene expression analysis.
- **Tiered pricing** aligns cost to customers with volume usage.
- **E-notebook** - ensuring continuity and compliance.

- **'Advance Outcomes Alert System'** for clinical trials, patient care and outcomes based business models for high cost patient care products.
- **Superior data** generated in workflows enabling automated knowledge extraction.
- **Superior end-to-end accuracy** through redesign of high volume measurement systems.

**UNSURPASSED
TECHNOLOGICAL ADVANTAGE**

- Powerful, patented **'Adaptive Hypersurface Technology (AHT)'**. Data-source agnostic. Inherent personalization.
- **ReSurfX and AHT recognized with accolades** for revolutionizing 'personalized medicine', 'data analytics', and 'big data utilization'.
- **Proven accuracy, novel insights, robustness, personalization with powerful benchmark and customer data initiatives.**
