

ReSurfX – Best-in-class Outcome Predictors, Innovation Catalysts and ROI Multipliers

Accurate, Robust, Best-in-class Prediction of Outcome Directions

Read more at: <https://resurfex.com/vysdom>

DEMONSTRATION OF the unprecedented predictive power and Advance Outcomes Alert capability of SyRTOP in a drug action application is validated including through FDA post-market actions on drugs interactions.

ReSurfX::vysen, SyRTOP

ReSurfX is an 'outcomes intelligence' technology company focused on improving innovation, outcomes, and ROI of enterprises from data-intensive activities, with primary focus on healthcare (Pharma, Biotech and patient care). ReSurfX provides artificial intelligence solutions through significant improvements in accuracy, robustness, novel insights, and advance prediction of outcome directions by leveraging a data-source agnostic novel machine learning (ML) approach we invented - Adaptive Hypersurface Technology (AHT).

ReSurfX::vysen is an Enterprise SaaS Product Based on Adaptive Hypersurface Technology (AHT) - A Novel ML Approach we invented.

The modular functionalities of ReSurfX::vysen, including the SyRTOP predictor, one ReSurfX::vysen product application configuration are proven to be differentiated, of high value and the best-in-class.

SyRTOP: System Response based Triggers and Outcomes Predictor

Results in data releases on ReSurfX website at <https://resurfex.com/vysdom> including on February 11, 2021 and January 21, 2020 demonstrate:

- **Accuracy**
- **Robustness**
- **Currently missed invaluable insights**
- **Predicting outcome directions in advance**
